

5th February 2019

Dear Parent/Carer

As part of the package of support provided to our Year 11 students in preparation for their forthcoming exams we have amended the after school revision session schedule to give an option subject focus in Half Term 4. This will allow for effective preparation for the option subject mock exams week commencing the 4th March, as well as finalising any coursework for submission before the Easter holidays. Please see the attached overview for the allocations.

Each option block has been allocated a night from Monday to Thursday. Students only take one subject per block so should be able to give a fair allocation to all their option subjects through the week. Geography revision will continue to run on a Friday after school.

Science revision remains on the timetable on Thursday afternoons and should be prioritised where required. The Science department will be contacting parents/carers soon to highlight those students to whom this applies.

These sessions ensure that students continue to have the opportunity to stay in school to work with their class teachers for an hour after normal timetabled lessons have finished. If you could continue to encourage your son/daughter to attend sessions as frequently as possible this would be much appreciated. If there are any reasons why they're unable to access this support please make their mentor aware so other alternatives can be considered.

Thank you in advance for your continuing support.

Yours faithfully

Martin Dawson
Assistant Head of School – Achievement
