

School equipment information

Equipment:

Organising books and equipment

- Students will need a bag to carry their books and equipment. It should be large enough to take A4 files. We recommend it should be waterproof.
 - Make sure students have a set of equipment. This should consist of:
- Pencils, pens, rubber, sharpener, crayons, felt pens, ruler, glue stick and a calculator
- Encourage students to leave all valuables at home
- Mobile phones are really useful for staying in touch with students, particularly so you know where they are on their journey to and from school. However, we do expect that phones will be switched off during all lessons. Students are responsible for their safe keeping.
